## Bleached Bitches Chapter.19: Luz Noceda

Luz had recently gotten a new papi and he was a total stud. The kind of man who took what he wanted and did not give a single shit what anyone else said. One of these things was Luz's own mother, who after a date with the single MILF got Camila's pants off and her cheeks thoroughly clapped by the heavy built white man. Camila's moans were loud enough to wake Luz up in the middle of the night.

A half awake Luz stumbled into the living room just in time to see George's thick white dick flop out of her mother's absolutely broken cunt. Camila's face had devolved into a sloppy ahegao, her drool and tears made the mascara run down her cheeks as a jet of cunt honey splattered over George's feet. Luz had only had a passing interest in boys, only ever feeling attraction to elf pretty boys or idealized fanfiction fap material but now she had a burning interest in men after watching her mommy get bleached.

Almost immediately George took notice of Luz, he walked up to her shivering wide eyes and slapped his cock against her midsection. He said that "she was free to join mommy a a bleached spic" and Luz froze, she wanted to push him back and call him an awful racist white bastard, but instead she begged for his cock. Her voice meek as she sputtered out the "please Papi."

Luz couldn't believe what she said, she had a loving girlfriend but a switch in her head flipped hard the second she felt his cock pulse against her skin. Before Luz could muster an objection George had already started prepping her for use. His fingers slipped into the crotch of her jean shorts, fingering her slit right in front of her brain popped mother.

Luz had her first squirting orgasm right there in the living room. She looked completely zonked out, consumed by post orgasm bliss as George bent her over the couch and fucked Luz raw. Giving his step daughter a hard bleaching, he filled Luz until her little brown girl's womb was ready to pop with Papi's sperm. Yet, even as Luz laid limp on the couch, wallowing in post orgasm bliss, she needed more and quickly became a very good girl for her Papi.

That was over six months ago and now Luz was a pure-bred bleached pet, ready to drain her Papi's big white dick whenever the need arose; which was often and Luz was unable to keep up with Papi's insatiable urges. The man could easily cum north of eight times every day and often left her poor mama bloated with cum, and easily reduced Luz to a drooling mess after a few rounds. So Luz decided she need to do the responsible thing and start training her girlfriend to be a cumdumpster too~

---

"You look so cute in your new outfit~" giggled Luz as she looked down at her bound lover. She'd been training Amity for about four to five months after she realized her Papi's lust was nearly bottomless and decided to upgrade from cheating to full on dyke betrayal.

Luz had decided to turn her girlfriend into a broken cuckquean cocksleeve, as a gift for her new Papi but she needed a fair bit more training to be ready for his size. So Luz had been edging Amity on one of those rubber horses. Her girlfriend's tight teenage body was naked, arms bound behind her back and legs spread by the rounded point of the vibrating rubber horse between her legs. Both her nipples were being pinched by plastic clips and up her ass was a thick foot long training dildo which was being constantly teased by the rubber horse.

"MMMMMM!" groaned Amity through her gag. Little streams of drool leaked as Amity came, being forced over the edge hard by the vibrations. Luz could see Amity's cunt juices leaking down the horse and smiled.

"Mmmm, I'm happy you're having fun *buuuuuuuut*—" Luz grabbed some airpods off her nightstand, "but it's not about your pleasure, it's about getting you ready to be Papi's new cock sleeve."

"Mmmmmmmnnn~" Amity shivered as she felt Luz put in the headphones, drawing out all other noises, except Luz's voice.

"I've recorded some audio of Papi fucking me raw with his big white cock. Be a good cuck and make sure to let every moan seep into your brain," Luz leaned over and whispered into Amity's ear, "consider it a little punishment for never making me cum."

*"Mmmhnnnn!"* Amity threw her head back, groaning loud into her gag as Luz picked up her phone and started the video, placing it on the nearby nightstand as Amity meekly thrashed and squirted her brains out.

"Enjoy your brain melting loser, hopefully you'll be ready for Papi soon~" Luz shivered, imagining Amity getting split in half by George's big white cock. She couldn't wait until Amity was finally trained and ready for him but was Luz?

She took a moment to make sure she was wearing proper pet attire. She didn't want to forget her collar again and sure enough she left it on the nightstand. A lovely dark purple collar with a white trim and a big purple queen of hearts as a tag and the rest of her body should be completely naked!

Her Papi told her that pets don't need to wear clothes and Luz completely agreed, going for a walk in her birthday suit was a good excuse to show off her new ink! Luz's tight teenage body had gotten a few changes to better appeal to her master's desires. Her perky little B-cups had been pierced by sparkly little barbells and her navel by a little ring. Her mid section was just starting to show signs of definition, smooth grooves leading to her hips and crotch. Over top her tummy was a big queen of hearts womb tattoo, which had little dog ears and a little devil tail appropriately accenting the heart.

Luz skipped down the stairs where her master was waiting by the door. George's large frame towered over Luz by a good foot and a half and he was nearly double her weight. His pecs pressed against his shirt and his big hairy beer belly poked out the underside of his shirt. Luz could see an outline of his fat cock against his basketball shorts and felt her head get all fuzzy when she hopped down the stairs.

"I'm taking your daughter for a little walk," shouted George.

*"Ghhnnn,"* Luz let out a little grunt as he grabbed her ass.

"Make sure you're ready for me when I get back," he continued.

"Yes sweetie, please have fun with Luz~" Camilia stepped out of the kitchen wearing only an apron. Her wide MILF proportions stuck out the sides of the thin white fabric, showing off her fat leaking areolas, wide birthing hips and huge pregnant belly;

confirmed to be with twins. The belly made a perfect outline in the apron and pushed up the front, showing off the tops of Camilia's thick pillowy thighs.

She rubbed the side of her face and blew George a big kiss as she cooed, "I'll have some muffins ready for you once you're done getting mi hija some exercise."

George nodded as he hooked the leash around Luz's neck, "Let's go pet."

"Yes Papi," giggled Luz as she fell down on all fours and scampered after George, shamelessly following her master into the night.

The town of Gravesfeild was sleeping. The scant few street lights provided the only scant illumination, just barely making the sidewalk visible from the homes. However, the only living company the pair had was the occasional raccoon or o-popssum that was rooting around in the local trash bins. The night was late and the summer breeze was cool and Luz was panting as her Papi led her along on a short leash, forcing Luz to keep pace.

George tugged on Luz's leash, pulling her forward, "Make sure you keep pace spic, it's a fifteen minute walk to the park."

"Arrrrff, arrrrrrff!" yelped Luz, smiling as she moved up beside her master, managing to keep up with his pace.

There was a time where Luz was embarrassed to go out in a collar. The promise of master dickering her down with his big white cock was the only reason she'd ever degrade herself like this but now she had her shame fucked out of her brain. Luz didn't feel an ounce of shame or fear walking down the street with master. If anything she wanted her limp dicked or faggot friends to see her crawling down the street. It made her so fucking wet watching her Papi pulverize their holes with his massive meat hammer.

"You've been such a good bitch recently Luz," he said, voice a little gruff, "almost the same caliber as your mother."

"Aaarrff, arrrrrrff!" Luz shook her hips with excitement at the praise. Her tongue flopped out of her mouth, drool dripped off her chin with every heavy breath. She hurried her stride, running in front of her master, shaking her hips towards him as she kept in step.

Luz had gotten used to the feeling of concrete, dirt and gravel beneath her feet. She didn't even notice the roughness of the ground as she moved, the only thing on her mind was imagining her Papi's cock churning up her guts. Pussy pulsing with each step she took, Luz thought she might cum before they got to the park but she managed to hold back, she was a good girl.

George led Luz over to a nearby bench, where some bushes kept them mostly covered from any prying eyes. He scratched his chin stubble before pulling down his pants showing off his massive white meat. A latina womb beater that was bigger than Luz's forearm and covered in thick pink thick veins that snaked down from tip to base. The underside of his meat swelling, his tip pulsating as he wagged it in Luz's face.

"You know what to do, puta," he ordered, "I worked up quite a sweat walking you here."

"Yes Papi, let me clean up your wonderful cock," Luz's eyes lit up as she cupped both her master's fat'n hairy nuts in her hands. The heavy ball flesh spilled out of her grip but her grip was strong enough to support Luz as she buried her face between his balls, taking a deep inhale of Papi's ball stink.

*"Snnnnnoooooorrrt, snoooooorrrt, snoooooort, mmmmmnnnn~"* Luz's chest expanded as she filled her lungs with musk, her expression melted and eyes fluttered, she took a moment to huff Papi's sweat, enjoying the little father-daughter bonding moment before she ran her tongue up the underside of his sweaty shaft.

*"Ahhhhhhnnnnnggghh,"* Luz left a trail of spit up the underside of George's cock as she reached his tip, giving the underside of his glands a little lick before she said, *"Mmmmn, you taste so fucking good Papi, I could huff your nuts all day."*

Luz excitedly trembled as George stepped back and tied off the leash on one of the arm rests before he sat down, spreading his legs. His sack slumped on the seat of the bench as his half hard meat pulsed, drawing Luz in as she begged, "please let me continue Papi, I'm hungry for cummies!"

"Such a slut, your mother would be so proud," said George as he relaxed on the bench, "go ahead Luz, drink your fill."

"Thankies Papi, I've been dreaming of doing this all day." Luz started stroking the base of George's shaft, pumping the first foot of Papi's meat as her pouty brown lips wrapped around his cock head. Her tongue tickled his wide asshole, lapping up his sweat as she

slowly swallowed his meat. The sin around her throat bulged, showing a clear outline of every inch she managed to swallow but it wasn't enough.

Her lips extended into a sloppy duck face, keeping a vacuum seal on George's massive meat as it slid deeper into her throat. Quickly nearly half his massive cock was inside Luz's windpipe, choking her airway but she didn't stop. There was so much cock left to go and Luz kept bobbing her head up and down Papi's penis until her head was squishing into his hairy belly.

"Such a good girl, Papi's little throat slut."

*"Mmmmmhmmmmn!"*

"I remember when you still had trouble swallowing the first few inches," he continued, letting out a longing sigh as he pet Luz on the head, "you've grown up so much, that or you spics are just natural white cock gobblers."

*"Ghhhuuggh!"* Luz looked up at George as she moved her lips back, her eyes were filled with hearts. She'd been so close to cumming by the time her forehead pressed against Papi's stomach and that little bit of praise was enough to make her cum. Luz's brain melted as her lungs sucked back musk tainted oxygen, trying desperately to recover but she wouldn't get the chance.

"Enjoy your reward, puta," exhaled George as he shot a thick load of ball snot directly into Luz's stomach.

There was no time to pull back further. Luz could only squat there as his hot white load filled her stomach and clogged her throat. By the time George was done cumming her stomach was over stuffed, his backed up ball snot was bubbling out of Luz's lips and nose. His hot cum dripped off Luz's chin and onto her little boobs as he pulled his cock out of her mouth with a disgusting slurp.

*"Huuuuuff... huuuuff... huuuuffff,"* wheezed Luz as George rested his cock on her face.

"Not bad, Papi is proud of his slutty little cock milker."

Luz's lips curved into a smile when she felt strands of spit and cum fall onto her body and face. She licked the leftover spunk off her lips as she muttered, "I can't help it daddy, you baby batter tastes too sweet."

"It's your mother, she'd got me eating all kinds of sweets." George slammed his belly, "and it's has its consequences."

"That doesn't matter to me daddy, I'll always be your little spic cock milker."

"How sweet," he responded, smirking as he spoke, "now are you ready to continue, pet?"

"Yes sir, but may I use some magic?" asked Luz, "your cock really wore me out today and I could use the boost~"

"Go ahead and do your little witch trick."

Luz traced the edges of her womb tattoo with her tiny fingers and the ink started to glow and she began to transform into a half-titan. Thick purple hair sprouted from her arms and legs, growing up her hips and around her tight midsection. Her breasts increased in size massively, flopping out as a pair of triple-Js, each massive fuck pillow easily the size of her head, perky and tipped by palm wide brown areolas. Her nipples were both still hard and pieced with barbells.

The hair on her head grew longer, reaching her lower back and a pair of pointed demonic horns grew out of her head and pointed skyward. Her eyes became wide black pools with deep animalistic pupils that glowed in the night. While from her furry new bubble booty grew a long fluffy dog tail, completing the bitch look. Strangely the act of transformation was so much easier after swallowing a load of her master's cum, it was like she could use it as fuel.

"*Mmmnnph*, big enough for you Papi?" asked Luz as she put her hands behind her head, showing off her titanic bimbo boobs. She swayed causing the sacks of magically enhanced flesh to slap together, filling the park with the sound of hot wet slapping. The magically massive tits were even bigger than her mothers' mammaries, dwarfing them by at least two cup sizes.

"*Ha*, just barely," chuckled George, scratching his belly, "now put those witch milkers to good use."

"I'll milk Papi's dick dry!" Luz had new pep in her voice as she sunk her furry hands into her massive tit flesh, squeezing George's tip between two silky and soft tits. Two perfect mounds of brown breast meat magically made to milk white dick. Luz couldn't help

herself and aggressively squeezed George for all he was worth, her long pointed tongue lapping up the leftover drops of cum that she squeezed from his urethra.

“That’s my girl,” he growled, letting out a pleased exhale.

Luz let out a little little moan as her tongue tickled his tip, her words slurred as she mewled, “*Hhnnuu, thu-anks Puh-pi!*”

“Oh and before I forget, remember to teach your little bitch trick to that dyke, *hhhmm*,” George scratched his chin as he wondered, “what was her name, Annie or Amy, something?”

“*Hehehe*, Amity Papi,” giggled Luz as she moved her boobs.

“That’s it,” confirmed George, “Unlike that other MILF, she’s flat as a board and could use the extra cup sizes. Make sure she can manage.

“Of course,” Luz proudly stated, “not every girl is made to milk white dick like us slutty wetbacks. I’ll make sure she’s up to your standards.”

“Like Camilia making sure you’re up to my standards?” added George.

“A little,” moaned Luz between sloppy cock-tip kisses.

“Soon you might even beat mommies tit-jobs technique.”

“Can mommy smother your fat cock like I can,” asked Luz in an almost jealous tone.

“Almost,” said George, “but she doesn’t need magic to milk me dry. She’s just a natural white cock slut.”

“*Hmmmmph*, you’re so mean to me, *Papi~*” Luz pouted as she squeezed her tits harder, clamping George in a vice of cushy flesh. Her enhanced strength and stamina being rightly devoted to milking his cock harder.

“I’ll show you that I’m not second place to any of your cumdumpsters!” Luz’s lips curved into a wicked smile, her yellow eyes flaring as she squeezed George’s dick with demonic strength, moving her breasts up and down as she focused her lips on his massive cock head. The sound of slurping filled the park, her nostrils flaring as she sucked back and pre-cum.

“Such a spirited little spic,” he teased, “show Papi whose his best cock milker.”

“*Mmmmmnnnn*,” Luz sucked and squeezed like her life depended on it, trying desperately to milk out another one of George’s hot loads, she could feel him getting close. So much pre-cum was oozing down her throat and Luz couldn’t wait to milk out the real thing.

“Well you’ve been working hard and Papi wants to spoil you—”

“*Ghuuaaaakkk!*” Luz’s eyes bulged as she felt George grab her horns and force more of his meat down her throat. She could feel the first few ropes of sperm shooting as her master continued;

“So enjoy another load, my treat.”

“*Ghhhhuumnnn...*” Luz’s moans trailed off as Papi’s powerful load painted her throat white. She couldn’t breath during the entire semen shower and could feel the cock cream slowly ooze deep into her gullet. Though Luz savored the tasty flood of sperm, ignoring her bodies cries for oxygen as she made sure to swallow every single fucking drop.

“That’s a good girl,” George let go of Luz’s horns and popped his cock out of Luz’s mouth, “*Suuuh-see Pah-pi!*” Luz hooked her mouth open with her talons, showing that she had in fact swallowed every last drop.

“A grade a sperm toilet just like mommy.”

“*Mmmhmmm, uuhhn-I duh*-didn’t spill a drop Papi,” moaned Luz, her voice soft.

“Well after two loads you must be completely full,” he sarcastically teased.

“Oh no, I’ve still got two empty holes~” Luz stood up and bent over, showing off her puffy brown anus and drooling slit. Her clit had swollen up and her entrance gapped slightly as Luz spread her cheeks.

“Take your pick, I am your spic, *hehe~*”

“Hop up and put that pussy to good use,” George nodded, grabbing the base of his cock, “and if you’re lucky you’ll be my newest baby factory.”

*"Aaaaayyyhhh Papi!"* Luz jumped up on the bench planding her feet beside George's thighs. Her sharp claws dug into the wood of the bench seat and the back brace as she leaned forward for balance.

"I go crazy for the chance to fill my womb with you hot cum!" she continued.

*"Mmmmmhmm,"* muttered George as his face was smothered in tit flesh and his tip almost immediately swallowed by Luz's pussy.

"Now you just relax and let your daughter do her work," Luz sunk her hips deep, letting out a haggard exhale as she muttered, *Huuuhhnn, s-su-so* glad the magic makes *muh-me* stretch more."

One of the many advantages of being a horny witch was the many spells that made things like "too big to fit" and "womb depth" more like suggestions than facts. Luz took great advantage of this fact while training her pussy, taking all kinds of large insertions to prepare herself to be used by her hung white master. Yet, Papi's fat white donkey dick still made her brain go blank whenever she felt those first few inches slide into her cunt.

The way George's fat pink tip scraped out her folds made her weak in the knees like all that titan strength was leaving her body but Luz wasn't a virgin anymore. She sunk her claws into the bench's backrest for support and bounced her furry hips up and down Papi's big white dick with incredible speed. Luz was panting like a bitch in heat, all her sensitive spots were being squished by George's dick and lord knows she could feel each spot being bullied as she bounced.

George grabbed Luz's nipples, twisting them using her little piecing as he spat, "bounce those hips bitch and you'll get a proper womb flooding."

*"Uhhhhn-I'M GUH-GUNNA BREAK!"* cried Luz, her movements slowed slightly as she squirted over George's belly, much to his delight.

*"Haha,* come on Luz, don't you wanna get knocked up like mommy!"

*"Uuuhhh-huuunnh!"* Luz nodded along as he tongue flopped out of her mouth.

"Then keep pace and really squeeze that cunt," ordered George as he twisted harder.

*"Ahhhhuuuunnn!"* Luz's expression devolved into a sloppy mess as he movements picked back up. Her big brown booty cheeks clapped and her muscles tensed every time she slammed her hips down on Papi's dick. Though she was getting tired, her belly easily bulged to take all the inches but the energy needed to keep up such a feral milking was large. Even titan magic couldn't stand up to Papi's white cock forever~"

Then like a volcano erupting Luz was pumped full of cum. Her womb bloated to accept the ultra-thick load of sweet nut butter. All those wriggling sperm cells filled her up all the way to her fallopian tubes, distending her belly as Luz stretched to take every drop of her Papi's load.

"Not bad Luz and you didn't even fall over this time," grunted George as he let go of her raw nipples.

*"Ahhhhnnn, hnnoo... suh-so full, you came so much~"* Luz's eyes crossed as she panted; Papi had finally finished cumming. This time she really hoped she was pregnant, the need not to fall behind her mommy was burning hot but her body was getting weak.

"And I'm still hard," added George as Luz lifted her hips off his cock.

*"Yu—huff, huff, huff.... Y-yes Papi, you're still so fucking hard,"* Luz's eyes pulsed as she felt George's cock pressing against her stomach, still ready to fuck.

"What are you going to do about it?"

"I'm gonna use my fresh hole." Luz lifted her hips and pressed Papi's cock tip against her anus. She wiggled her hips, teasing his penis as she continued, "unless Papi wants my pussy again?"

"Oh no, I wanna see my puta be an anal slut." George lifted up his hand and gave Luz's ass a heavy;

***SLAP!***

*"Ahhhhnnnggh,"* she shivered, ass rippling from the impact. Luz accidentally took the first inch of George's dick's dick into her asshole, losing control as his hand collided with her big brown booty.

“Well come on, be a good girl and milk my dry,” George let out a roaring laugh, “or you’ll never beat mommy’s record.”

“*Hnnnggh, y-yu-yes Papi,*” Luz started riding Georges cock, flashing him a double peace sign as she confessed, “I’m your little bleached slut and I won’t give up until every single drop of your superior white sperm is bleaching my belly!”
