Bleached Bitches Chapter.18: Nani Pelekai

Nani Pelekai's troubles were mostly over. For the longest time she'd be buckling under the weight of trying to raise and provide for her sister all by herself. However, that had quickly changed after meeting Danny Westpoint. A rather wealthy, and muscled businessman who owned a large share of local real estate and now practically owned Nani.

It'd started after Stitch did a little too much damage to a shop by the main street, Nani got the bill and she didn't have the cash to pay for it. She'd gone to Danny pleading for a payment plan but left utterly stuffed with cum, grocery money and the promise that more would come if Nani came to him willingly. She'd have to get on her knees and beg her new master for his white meat if she wanted more money. What choice did Nani have?

Nani could slave away at her restaurant job, barely scraping by or spend a couple hours a week whoring herself out to Danny and in exchange never be stretched for food, utilities or money for Lilo's schooling. The choice was obvious and Nani had no trouble burying her pride; at first. Quickly Nani couldn't stop thinking about Danny or his massive forearm length white womb beater.

The way it churned up her insides and made her a sloppy drooling mess; at one point it made Nani feel shame. She would come to Danny and he's look at her with that pretty boy face, big blue eyes, sculpted chin and cheeks, and a smile that made most of the island girls melt. However, behind his model-like features was a sadistic master that delighted in degrading Nani for every dollar given. The treatment was brutal and Nani initially took two types of birth control to deal with his virile white loads but after two weeks she stopped.

Something inside Nani snapped after she was left alone, cum stuffed and broken on the floor of Danny's office. Instead of prioritizing groceries, utilities or savings she thought about prettying herself up for Danny's next call. That's when she realized she was hooked on white dick. Simple masturbation didn't even take the edge off and sex toys did nothing to help, one week of being away from him was all it took for her to give in.

Nani was willing to do anything to keep him pleased, no matter how racist or degrading her treatment; suckign his cock in alley ways, under the table in restaurants and even in the parking lot of Lilio's dance school. At first she tried to keep Danny away from her family and home but now she was inviting him over regularly to drain his balls. The initial justification was it wasted less time and meant less driving but why did she get so wet when she heard him knocking at her door and she knew that it meant she needed to service her master.

"Come on Nani, it's time for your training," ordered Danny, after waiting patiently for Nani to strip.

"Yes master," Nani entered the kitchen naked on her hands and knees, her body trembling as her breasts sagged almost scraping against the floor. Her tight tummy curved into wide hips and a juicy butt that jiggled as she clumsily crawled into the room. Her face was a mixture of tiered and strained, big brown eyes wide and teary as she tried to hold back groans. This was the first time she'd been made to crawl and she felt so humiliated she could die, but incredibly horny.

There were fresh groceries still on the counter top, the flimsy justification for why Nani was now crawling on the floor towards Danny's feet. Even half hard his cock was absolutely massive. A forearm length bitch breaker that pulsed with an angry red tip and thick blue veins. His smooth nuts alone were each bigger than Nani's fists and sagged slightly, covered in little beads of sweat. She couldn't keep her eyes off him and looked up into Danny's face as she reached his feet.

"Come on bitch, I think you know how to present yourself to me." he continued as he gripped the base of his cock.

"Yu-y-yes master," she stammered as she entered a begging position. Nani squatted on the tips of her feet; legs spread, hands pushed up like paws and her eyes fixated on Danny.

“Go on,” Danny ordered, slapping his meat against Nani’s face. He was sweaty, and smelled like he’d been outside in the sun for hours. His musk burned her nostrils, yet made Nani’s pussy pulse. She knew it was her job to clean his filthy shaft but she’d need to work before Danny gave her the privilege.

“Thank you for taking the time from your busy day to train this filthy brown mutt.” she continued, panting, “and please let your devoted pet clean the filth from your godly white cock~”

Nani’s tongue drooped out of her mouth and towards Danny’s dick, desperately lashing at his pristine white meat. He could see the desperation in her eyes and gave Nani’s cheeks a heavy; *SLAP!* With his pulsating cock. Which only seemed to make Nani lap at the air harder.

“Such a pathetic lava nigger,” he rubbed his shaft against Nani’s wide nose, scrunching it up, “your brain just shuts off when I slap my dick across your face.”

Nani drooled on her tits as she let out a sloppy, “*Suh-sooowwy siir~*”

“Awww it’s not your fault, it’s just your true nature taking over,” Danny continued, “and I won’t torture you for that, you can start cleaning me and remember to do it just like I taught you.”

“*Mmmmmppphh, thu-thank you sir,*” Nani clasped her hands and held them behind her head as she wrapped her thick brown lips around Danny’s dick. Her tongue tickled the glands around his tip before she started sinking more of his thick meat into her throat.

Weeks ago Nani still had trouble, she could barely wrap her lips around the tip, but now she was becoming a proper throat-GOAT. Nearly able to take the entirety of Danny’s veiny white dick in one head movement. His perfect penis stretched out Nani’s throat, making a massive cock bulge, yet Nani’s sloppy cock slurping only got faster.

The room filled with the sound of hot wet slurping as Nani impaled her own throat with Danny’s pulsating white penis. Pressing her thick lips against the base of his dick, giving his crotch a sweet little kiss before she pulled her head back. Her lips extended, brain melting in her skull as his musk choked what little breathes she could make between head motions. It felt like Danny was completely filling her esophagus and it looked like it too, her throat bulging, showing a perfect outline of Danny’s dick.

“Good pet, you’ve improved since you first started servicing me for pocket change,” said Danny, his tone smug and confident, “but now you don’t even gag.”

“Ghhhuunnkk, mmmmmph~” Nani sputtered a sloppy gurgle as she pulled her lips off Danny’s dick, leaving a layer of thick spit and breaking countless little ropes of throat slime as she looked up at him, *“Thu-thank you master, would you like to use me, now that you’re clean.”*

“Hmmm, you sure?” he teased, “you’ve already done enough to earn those groceries, I’d be willing to leave it at that.”

Nani bit her lip, pussy pulsating as Danny’s dick throbbed in her face. Her master knew full well she wasn’t done and simply enjoyed teasing Nani with reminders of their old bargain. He knew full well that Nani didn’t want this to be over yet, she needed more from her muscled master and her cunt wouldn’t let him leave until he’d fucked her brains out, again.

“I insist!” Nani stood up and leaned over the kitchen window, pushing her thick, jiggly heart shaped booty up. A sudden clap resounded through the kitchen as Nani shook her ass for Danny, mewling as she did so, “I wouldn’t want you to leave unsatisfied and Lilio does need money for school.”

CLAP!

CLAP!

CLAP!

“So please,” Nani twerked for her white god as she spoke, hoping no one was by to hear her pathetic begging, “shove that huge white dick inside me and keep fucking me until your balls are drained!”

“Such a bad sister.” Danny walked over and grabbed, “imagine if Lilo saw you acting like a dumb bleached island monkey.”

“Hnnnggh, uuh-I’m doing this for her—” half heartedly sputtered Nani, her brain barely clung to the once noble idea that this was all for his little sister but her cunt knew better.

“Heh, so you’ve said but I don’t recall you asking for any money the last few times?” Danny interjected, shoving the first few inches of his shaft into Nani’s soaking slit.

"Hhaaa-aahhhnn," moaned Nani, her words melting in her mouth as she felt Danny's cock

"You better not forget to ask for cash this time." Danny started to buck his hips, pushing his penis deeper into Nani's folds, "I wouldn't want your sister to suffer just because her big sister is a brain dead lava nigger."

"Haaahhnn, soooowrry!" Nani's expression melted; her eyes crossed and nostrils flared as she felt Danny's massive white cock beat her womb's entrance.

She still had trouble getting used to his size. The way his giant cock tip scraped out her folds was like nothing Nani experienced and thanks to the angle of his insertion Nani's g-spot was being continually crushed with each thrust. It only took about half a minute for Nani to squirt the first time but Danny didn't care. He was here to satisfy his needs and shoot his thick white seed, and Nani didn't need to be awake for him to finish.

"Huuuhhhnnn, sooo deeeep," she wheezed, barely able to keep her footing as Danny's nuts swung like wrecking balls and slapped against Nani's crotch. She was ready to let her brain shut off and just enjoy being a cheap native sex sleeve, but-

"Cousin, I thought I heard something over here!"

Nani's expression clammed up as she watched David poke his head off the side of the porch. Nani closed the drapes hiding the man breaking her backside as she let out a sputtered, *"Du-D-David! What are you doing here?"*

"Lilo left her surfboard at the beach and I thought I would... Are you okay?" asked David, "cause you look a little flush."

"I'm—*mmmnn*," Nani bit her lower lip, trying not to let out any groans. Her face strained as she tried desperately not to let David know she was getting her womb beaten by a haole's nasty white cock.

"Aahh—I'm fine," she wheezed, her voice sloppy, she almost let her tongue fall out of her mouth.

"You sure?" asked David, laying the surfboard on the side of the house, "cause I could get you—"

“No! No, *eehh-issht’s fuh-fine*,” wheezed Nani, trying to put on a smile as she looked at David. He had tried to awkwardly hide his boner, he must’ve noticed one of the lewd faces Nani made or maybe saw a quick nip slip as her boobs swung and poked through the thick curtains.

However it didn’t matter to Nani if David got a quick peek, let the little cuck watch for all Nani cared. That little bulge in his swim trunks wasn’t even a tenth the size of Danny’s big white bitch breaker. David was practically a child in composition to Danny’s girth, a limped dicked nice guy stereotype that should just stand back and watch Nani get bred by a real man, a white man.

“Well if you’re okay...” David rubbed the back of his head, trying not to make eyes contact with Nani as he asked, “maybe once you’re better we could~”

“Mmmmhnn, su-suh-sorry David but Lilo!”

Nani’s expression shifted to a sloppy ahogao and she just barely managed to hide it from David’s sheepish gaze as Danny filled her womb with thick white sperm. The load erupted like a volcano blasting hot semi solid genetic sludge into every corner of her cunt. Her belly distended slightly as she gripped the window sill, her cunt squirting over the floor as Danny continued to fill her up.

“Holy moly, Nani are you okay?!” David looked rather concerned and even tried to reach out and touch Nani’s shoulder, but winced when he saw Nani’s expression.

Nani’s eyes were filled with hearts, teary and wide. Her expression sloppy as drool dribbled off her lips and onto the window sill. Everything faded away for a couple seconds, no thoughts about David or Lilo filled her head. She just let the need to breed take over as her womb was pumped full.

“Suh-sooowwry, du-David,” she sputtered as Danny’s orgasm started to end, *“mnnhh,* but my stomach has been giving me trouble, mind if we—*hnggh, t-tu-talk* later?

“Ummm, yeah you seem sick, maybe some other time is a good idea,” timidly sputtered David as he slowly moved back, giving Nani a warm wave, “We’ll hang some other time.”

“Hnnnggh, yuuuh-huuun,” drooled Nani, her brain buzzing with pleasure. She couldn’t believe she just got a hard womb beaten and bleaching as David watched her like an unaware kid. He must’ve been even dumber than Nani thought to have not noticed a

thing or from the twitching bulge in his pants, he could've cum prematurely, both options were equally likely.

"What a nice guy, shame his micro penis means you'll never be interested," chuckled Danny.

"Uhhh-huuuhhnn~" Nani painted, hoping David was far enough away not to hear her pathetic mewls but she didn't care enough at this point to hide them.

She could feel Danny's thick white sperm cells wriggling into her eggs. Odds are she'd be pregnant by the end of the month but the idea of giving Lilo a niece didn't seem so bad anymore. Now that Nani had a real man in her life she was happy to be his obedient little half breed factory forever.

"Surprised that limp dick bitch boy didn't see us," grunted Danny as he pulled out, "not that it would have mattered, if he gave me any shit I would've beat his ass~"

"Y-yu-yes sir, David's too much of a bitch to do anything," mewled Nani, legs buckling as she felt his seed trickle down her inner thighs, *"but he d-duh-does have a nice butt, maybe he'd make a good bitch boy~"*

"Maybe, but first finish cleaning me up," Danny bent over and showed off his firm white boy booty, "I worked up quite a sweat pounding you and you wouldn't want me to leave your place reeking of sex, would you?"

"No master," yelped Nani as she crawled behind him and pressed her tongue against his sweaty rim, her nostrils flaring as she took another big whiff of his musk.

"Good girl, keep improving those tongue skills and I might let you move in with me."

"Mmmhmmmm, gghyyynn~ (thank you!)" Nani mewled as her tongue wriggled into his butt. Both her hands quickly started to stroke his cock, eagerly milking out another load as the last one leaked out of her cunt onto the kitchen floor.

There was no denying it anymore, she was one hundred percent hooked on Danny's big white dick; bleached and broken, she would never be able to resist him for the rest of her life. Odds are Daddy would happily walk Nani around in public on a leash and even more likely Lilo would share that fate one day, but what could Nani do? She was a sucker for a big white cock and a cute butt.
