

Description: Red's Bellsprout has evolved into a blowjob addict and has a few new moves she wants to show her master.

Series: Red's Pokemon

Kinks; Plant Girl, Shortstack, Deepthroating, Throatfucking, Oral Fixation, Breast & Ass Expansion, Cock Growth, Tit-Fucking, Thick Lips, Gloryhole, Anthro, Futanari, Hemi Penis, Canine Penis

### **Red's Bellsprout**

Recently Red had a mystery on his hands, he'd been waking up finding his dick drained and coated in a layer of thick saliva, but no pokemon was present after he awoke. He assumed one of his poke-sluts was being cheeky and accused his various team members; however, all of them had solid alibis. Some were at the base gym, others were sleeping, and his prime suspects (his Zoroark and Nindoqueen), he caught fighting outside his door. Their faces free of any cum, leaving Red with no suspects or leads.

Someone must be lying, yet after some psychic interrogations, Red discovered... fucking nothing! Not one of the usual suspects or unusual suspects had sneaked into his room during the early morning for some of his home made protein shake. Not his Mew, Mewtwo, Tsareena, Rapidash, Garchomp, Houndoom, Reuniclus or Sillazzel. There were only a few Pokemon left unchecked, but Red doubted his Garbador was doing it or he hoped that wasn't the case.

Still Red was determined to see which one of his pokemon was being naughty and he set his alarm to wake him early in the morning. Red would pretend to be asleep and jump this wannabe cum rustler. It was a simple plan, (one Red was surprised he didn't think of this idea at the start of the week), and it worked! The second Red felt something brush against his thighs he pulled back the covers and found his... Bellsprout, Cala? Well, it was his Cala but she had undergone a few changes.

Unlike a normal bellsprout Cala had a much thicker body; well thick by bellsprout standards. Her light brown roots had grown out to be more feminine, forming a tight hourglass figure, complete with c-cup jiggy brown plant titties, tipped by puffy green innie nipples, and a tight brown pussy with leaf green inner lips, but she was still around three feet tall. The old leaf-arms now served as shoulder pads for root-like humanoid

arms with matching fingers. Her thighs and calves had thickened out to help support her curvy hips and massive brown ass cheeks.

Though her bodily changes were somehow less surprising than her facial changes. Cala's lips had thickened considerably, becoming a puffy pink pair that matched her new eyes perfectly. Cala didn't have pitch black eyes anymore. They were large, expressive humanoid-like eyes that shone a deep green with pupils that looked like pulsating green hearts. Though, her peepers started to look awfully nervous once she noticed Red was awake.

"Cala? How..." Red paused before sighing, "Your recent transformation is Mew's doing, isn't it?"

*"Mmmmmooooohhn!"* Cala shook her head no, spilling a bit of what looked like drool from her moist lips.

"Then how did you change without... Wait, it was Mewtwo, wasn't it?" Cala looked up at Red nodding slowly. Mew's cum could change pokemon, but Mewtwo could transform pokemon and people in strange ways that she was becoming more adept at. It was something Red would need to address sooner or later, but first, Cala needed attention.

"Alright... and did you want this transformation?" Asked Red, his voice tired, but concerned. Since her answer would determine what Red did with Mewtwo.

*"Mmmmmooooomgh!"* Cala let out a soft wet groan as she kept nodding.

"That's good, but I'll punish her for lying when I asked if she touched any of the team. Though it's my own fault for not checking on you sooner." Red reached out and caressed the side of Cala's face. She let out soft groans as she nuzzled Red's touch.

"I've just been busy with this silly hunt. I was worried your team members were getting more aggressive, but I should've checked to see if you were still in the garden-oooh."

Red paused as he felt Cala started sucking on his thumb, her soft wet lips squeezed as she looked at him with big sparkling eyes. Her pupils beat faster and grew larger as she looked at Red. There was a lot of lust in her eyes and Red didn't have the heart to deny her. Plus he was too curious on how Cala's all natural fuck sleeve felt.

"Alright," said Red, his lips curving into a smile, "You can keep going-"

*"Mhhooooommm! Mwaaaah, mwaaaaah!"* Cala lunged forward and planted a trio of sloppy kisses up Red's morning wood, leaving a massive amount of sticky spit with each kiss. She was about ready to throat his poke-flute, lips so close to swallowing Red's fat tip.

"Hold on," said Red as he grabbed Clara's face, "I'll be controlling the pace of your movements, alright?"

Cala gave nearly two dozen quick excited nods, not breaking eye contact with Red. The hungry plant's lips dribbling drool in anticipation of Red's penetration. He wondered how safe throat fucking this specific Pokemon would be? His cock was longer than her head and it didn't look like Cala had a throat, but his cock had been spit shined to the base the morning before. So she had to be throating his entire shaft somehow.

"We'll start off slower, I don't want you getting hurt." Red gently slid his dick into Cala's mouth. Her tight pink walls squeezed around his cock, gently sucking him as she lathered his meat. Red hardly felt any resistance as he moved her lips up and down his length.

"I guess not needing to breathe normally has its advantages." Red smiled looking down at his little bellsprout, "You're clearly above the beginner level."

*"Ghhuuuuuunnk!"* Cala looked up with loving eyes as Red tightened his grip, "Now let's see how you handle the intermediate levels."

Red started using his Bellsprouts' mouth like a literal sex sleeve, using an amount of force he normally reserves for his Dragon types on Cala. His thick throbbing cock reached extra deep in her throat with each motion, but she loved it. Cala easily stretched to meet her trainers needs and kept unbroken eye contact as Red pumped. His proud smile and heavy lust filled breaths were all Cala needed to step up her head game. She tightened her mouth and sucked harder, her salivation increasing exponentially. Soon Red could feel her sloppy drool dripping down his sack.

"What an excited little slut. You're wetter than the water types." teased Red as he looked into Cala's big heart filled eyes. Her thick drooling lips kissed the base of his cock, teasing every last inch of his dick. He could feel his cock swell with each plunge into Cala's wet sloppy maw. She certainly deserved a reward.

"Grass types need their nutrients and you've earned an extra thick load of protein!"

*"Nuuuhhgggguu!"* cried Cala as she felt his nasty human nut shoot into her mouth. The first load for Red was always as thick as a Muk. It was next to impossible for most of his pokemon to swallow it but for Cala it was natural. Her body absorbed Red's seed, allowing it to seep into her very core and it had an incredible effect.

Cala's tits began to grow with each rope swallowed. Little brown breasts bloomed into massive Miltank tier tits, reaching F-cup. While her nipples poked out of their sheaths and hardened into a puffy pair of beefy light green nipples with wide puffy areolas. Her hips widened and ass plumped out to rival his Gardevior. Though her lips got even larger, to the point her soaking pink ring didn't close. It constantly stayed agape even after she pulled her lips off Red's cock.

"Huh, I'm surprised you didn't turn into a Weepinbell. The other's evolved to better fit my size, but not you." said Red, though he wasn't about to complain.

*"Mwwwwhoooo!"* Cala looked at her new thicker plant body, with excitement. Inspecting her wider curves with a silly smile on her lips before she looked to Red for positive affirmation that her new thick little body was appropriate for his needs.

"I'm so proud of you, Cala. You've grown so much in the past year, from a shy Bellsprout into a lovely little cock sleeve!" The hearts in Cala's eyes throbbed as Red continued, "Would you like to test out their new body of yours?"

Cala slowly nodded, not taking her eyes off Red's cock as he continued, "Well let's put your new body to the test." Red was obviously referring to Cala's enhanced body, but she had her own ideas. There was little time for Red to react, by the time he realized Cala's lips were already back around his cock. Quickly taking his entire shaft into her salivating maw.

*"Huh,* not what I had in mind but it is your reward." Said Red, shrugging before he pet the side of her head.

*"Muuuugghnnn!"* Clara let out a sloppy goran as she formed a vacuum tight seal around Red's shaft.

"Just make sure you don't go too hard. I am still worried you'll get hurt-*mmmggghh fuuck!*"

*"Guuuuhhhnngghh!"* Cala's sloppy wet cries filled the room as she started to suck out Red's soul. She happily gave Red the sloppiest top he had gotten in his entire life. His

meat was getting detached in spit while being thrust deep into his Bellsprout's maw. Every single veiny inch was benign lovingly squeezed in her pressurized mouth, milked for all it was worth. Within a minute Red was sure his cock was spewing pre-cum, and Cala was sucking it down with a feral hunger.

*"Cuh-Cala slow down, you're doing something weird-mmmnnnggh!"* Red leaned back against the bed, his hands still keeping a grip on Cala's mouth. He could feel his muscles relaxing as the strength was sapped from his body, his cock swelling in response to Cala's sucking. He could feel her sloppy spit oozing down his meat in little rivers, dribbling down his taint with each heavy suck of his cock.

The sensation was strange, yet incredible. Cala didn't have a tongue or a functioning throat, but she could keep a vacuum seal on his cock. That combined with incredible control of her mouth's pink interior and the sweet spit she secreted made Red wonder if this was the best head he ever got, and he couldn't hold back. His cock kept spewing pre-cum, and Cala kept sucking harder, impaling her mouth with Red's thick human meat until he burst.

*"I'm goooonaa cuh-cuuuummm!"*

*"Mmmmmmmggghhh-oooohhhngghh!"* Cala let out such sweet moans, so soft and sloppy. She swallowed every last drop of Red's extra thick load, absorbing it into her cells. Letting it saturate her body as she made sure every drop was drained before finally her lips popped off.

*"Nyyhhhoool!"* drooled Cala as she fell back, her body felt weak after spending so much energy and she shivered on the covers. Though while she tried to process Red's tar thick nut, she'd given Red a gift in return.

A massive cock size increase!

"By fucking Arceus, what did you do?" Spat Red, he pushed his messy black hair out of his eyes to get a good look at his massive new poke-bitch breaker. An extra six inches at least had been added to his dick, which now easily reached his knee. With a fat flared pink cock head, and a veiny pulsating shaft at least nineteen inches in length. Red now had a slab of meat that would make most Musdales and Rapadashes blush.

"Arceus damnit, every Pokemon in the stables is gonna be giving me looks now." Exhaled Red, the one excuse he had to keep his larger Pokemon off his cock was size. He could feign being too small to fully satisfy them during heat. A bad excuse, but now

he'd probably have a dozen horny horse types fawning over him, the second mating season arrived.

"Mwwwooooonnngh?!" Cala looked up at him with sad eyes looking like a dog that just got scolded."

"Ah don't worry, baby." Red reached out and pet Cala on the head, "I'd never stop you from being a first rate cock sucker, but we can't have anyone being exposed to your saliva. It might do more than just grow their cock a few sizes."

"Oooohmmmmghh!" Cala nodded along to what Red was saying, but Red was pretty sure she only cared about squeezing his meat between her new massive plant titties.

Red leaned back and let Cala polish his cock, testing her new body while he thought up a place to plant his new extra stacked shortstack. It was almost frightening how quickly she adjusted to using her mouth to suck cocks, but here she was giving his new meat a double tit job and blowjob. Completely undeterred by the fact Red's meat literally stretched out her mouth to what should be her physical limits.

"You really love polishing cocks, sucking and serving just like... Oh, I have an idea." Said Red, a grin growing, "I have the perfect job for you Cala, but first I need to know. Do you mind tight spaces?"

Weeks later....

"Ahhhhnnn, thanks bitch, I needed that," exhaled Red's Houndoom, Hazel. She'd just finished inside the public gloryhole, and wondered why it took so long for Red to turn the old break room into something useful.

Hazel was previously a normal Houndoom, but after a chat with Mewtwo she had a jacked new anthro-futanari body. A more feminine face, with a pointed Houndoom snout. Her new lips were black and pouty, head horns long and curved to the back of her head, with silky black hair she'd highlighted to a be fiery red and parted over one of her feral amber eyes.

Hazel's body was tight with not even an inch of fat, sculpted thighs, calves and glutes, propped up a perfect heart shaped bubbly booty with a long slender black tail. Her ruddy red underbelly was ripped, a perfect eight pack combined with a pair of perky double-Ds both tipped by hard puffy black nipples, and between her legs was an

absolutely fat pointed red dog-cock; one of her few masculine traits left post transformation. It was at least a foot long, knotted and hanging beneath were a pair of fuzzy red nuts to match.

“Though, I’m not quite satisfied. I’ll be back for a second and third round later.” Hazel licked her lips, imagining how could it would feel to bust another few nuts down the new glory hole

“We both know you’re only satisfied with a proper prostate pounding, sis.”

“Uhhnnnggg, Bertha,” snarled Hazel as she turned to her rival, “I knew something smelled like sweat and desperation.”

“Awww, don’t be such a depressing little emo.” Teased Bertha, a toothy grin grew on her face, “I’ll fuck the bitch out of you since Red clearly won’t.”

“Rrrrggghh, you skinny dicked whore!”

“Right back at you, limp clit.” teased Bertha, Red’s Garchomp. Caught as a Gible around the time Hazel was still a Houndour. The six foot five Pokemon was much like her rival, a Pokemon built of shredded muscle. Powerful scything arms bulging with thick sweaty muscles, her red underbelly was rock solid save her massive triple-J cup tits. Both tipped by fat very red nipples that stuck out like a roll of Poke-quarters. A pair of powerful digitigrade legs propped up a monstrously large blue bubbly booty. Bertha could rest the first few inches of her long tail over the cheeks, but the main source of their rivalry was penis size. Sticking out of her yellow scaled crotch were a pair of pointed red lizard-like dicks, at least the same length as her rival, with matching nuts.

“I can double stuff and have the amazing ability to pull out after I finish cuming. Can you do that bitch?” growled Bertha.

“At least I can give red a handjob!” Continued Hazel through gritted teeth.

“Why give him a handy when you could deep throat him like me?” Bertha opened her maw and ran her long red tongue along her lips before teasing, “Oh that’s right, you’ve still got the gag reflex of a pup.”

“And you’ve got the prostate of a Gible. Can you stop yourself from cumming when Red fucks your ass?”

"It's true, two prostates means double the pleasure and double the cum production. Do you ever get past six cumshots in one round?"

"Do you ever get past the twelve second mark?"

Both girls were baring their teeth and would probably ruin Red's new glory hole room, but Red interjected, "In all fairness you're both pretty big quickshots."

*Slap!*"

"*Mmmmmnggh*, Red!" Yelled Bertha, her cheeks got flush as she felt his hand slap her firm ass, "I didn't realize you were awake?"

"Or that you could hear us. I hope we didn't wake you," added Hazel, her tone sharply turning from sour to sweet as she looked at Red with her big amber eyes.

"The whole base can hear you two girls barking at each other." Red responded as he walked over to the glory hole, "But today, I had to get up early to-"

"You smell positively filthy master." Hazel sniffed the air before walking over and grabbing Red's crotch, "*Mmmm*, did you have to fuck Mewtwo's brains out? You must've been, I can smell the unmistakable scent of that psychic slut all over you."

"*Ha*, right as always, Hazel."

"We could do a much better job milking your morning loads than that greedy whore." Pouted Bertha as she folded her arms under her breasts.

"And you both might get the chance. I've got a special guest coming," said Red with a cheshire grin, "But first I've got to check on our new glory hole."

"*Mmmmpph*, fuck yes," moaned Hazel, her cock sprug to life. She leaked a bead of pre-cum as she imagined what Red might have planned.

"I'll make sure to hold off cumming until then. I want to give our special guest a proper welcome." Bertha leaned over and planted a wet kiss on Red's cheek before she left the room, moaning, "I'll be thinking of you while I edge in preparation, master."

"I guess I'll do the same." Said Hazel, not looking to be out done.

"I'll see you in the second basement lab in an hour." Red gave his Houndoom a smile as she left, taking note that she was trying her best to cover her leaking erection. The sound of her paw falls faded as she left Red alone.

Red leaned over and opened up a large panel in the wall. Team Rocket used to use this fake wall for storage, but Red repurposed it. Now the back wall had room for at least four Pokemon to serve at the open glory holes, but the only one there was Cala. Her arms were bound behind her back by latex wrap and her legs were tied much the same way. Underneath her body was a large stool allowing her to reach average waist height so she could put her big pink lips to good use and use them she did.

Red's pokemon had dumped at least a dozen loads into the stacked grass type. Strands of cum dripped off her lips and pooled on the floor. Both her green nipples had swelled from the sudden injection of nutrients and started lactating sweet golden ambrosia. Red assumed she needed a break, but from the way she looked at him, she was clearly still hungry for more.

*"Mooooohhhmmm!"*

"Do you want more Cala?"

*"Mhhooooohhhmm-mooooohhhmmnngh!"* Cala nodded quickly, shaking in her binds as Red stood up in the space.

"Such a thirsty little flower, here is your water." Red unzipped his pants and flopped out his massive cock, which was more of a challenge now considering its length. However, he was getting used to his new size; though the same couldn't be said for his team. Yet, Cala was more than happy to brutalize her mouth just to taste Red's seed. She wrapped her thick lips around Red's cock looking up at him with big needy eyes as she swallowed his entire cock, getting her master drained before he starts his day.
